The meeting will focus on federal grazing permittees within the **Los Padres National Forest** and the **Central Coast Field Area of BLM's Central California District**, though all public lands ranchers are welcome to attend.

This meeting will provide a venue for public lands ranchers to discuss issues of local importance with one another and with agency officials at the local and state levels. Issues to be addressed include (but are not limited to): access to retired or vacant allotments, water quality, fire control, road closures and road maintenance, monitoring, and more.
